The Ohio EPA requires that all Public Water Systems submit a completed Service Line Inventory no later than Oct. 16, 2024. The survey below is necessary to complete the homeowner side of the Service Line Inventory.

Please complete and return the form to the New Philadelphia Water Department. It can be scanned email or image to: [waterplant@newphilaoh.com](mailto:waterplant@newphilaoh.com), or dropped off at the Water Billing Office at 150 E. High Ave. If there are any questions, please call the City of New Philadelphia Water Plant at 330-339-3795. Thank you for your cooperation.

To complete this survey a coin or other tool to scratch the pipe, and a magnet. **The water Service Line comes into your building or home from the street. It is typically located in a utility room on the lowest level of the building or in a crawl space. The Service Line will be connected to the water meter.** Identify a test area on the pipe between the point where it enters the building and the inlet valve/meter.

### Question 1: Customer Contact information

- Name: \_\_\_\_\_
- Address: \_\_\_\_\_
- Account Number: \_\_\_\_\_ Phone Number: \_\_\_\_\_
- Email address: \_\_\_\_\_

### Question 2: What was the color result after the scratch test?

Scratch test instructions: Use the coin, key, or another tool to carefully scratch the pipe (like you would a lottery ticket). If your line is painted, you may need sandpaper to clear a small area.

- Shiny and silver – Lead
- Copper colored (like a penny) – Copper
- Dull and gray – Galvanized
- Plastic / PEX / PVC

### Question 3: What was the result of the magnet test? Magnet test instructions: Place a magnet on the pipe.

Does a magnet stick to the pipe? (yes or no) \_\_\_\_\_

You have a lead pipe if...

You have a copper pipe if...

You have a galvanized pipe if...

**The Scratch Test**
